My background.

I am approaching the end of my studies at The Manchester Fashion Institute and will soon be graduating with a BA (Hons) in Fashion Promotion. Over the last four years in my studies, and breadth of experience I have developed my creative, writing and promotional skills. These physical skills complement my passion, resilience, willingness and craving to learn and have left me ready to jump into graduate employment.

Motivated by the world around me, I have been discovering more about our planet and sustainable ways of living, this interest alongside my love for beauty and fashion have encouraged me to adapt my approach to living and working and I now feel confident and look forward to an exciting career in the sustainable beauty and fashion industry.

What i've learned.
